

The Municipality of Anchorage (MOA) is planning to upgrade the Image/Reflection Drive area (see map on back). Improvements are expected to include:

- New road foundation
- New storm drain system
- Improved street lighting
- New asphalt pavement
- Improved pedestrian facilities

The MOA has contracted with CRW Engineering Group, LLC to provide engineering and design services. No funding for construction has been received at this time. We recently completed the 95% Pre-Final Design for Phase 1 of the project (see map on back for phasing limits). It can be viewed and downloaded for review and comment on the project website.

Please join us Wednesday, February 19, for Open House #4 to discuss the 95% Pre-Final Design for Phase 1 of the project. Come share your comments and provide input to the project team.
