Area map #1	Can homeowners pay to remove and replace remainder of driveways beyond Image/Reflection project construction limits? Answer to homeowner after meeting: There won't be any provisions or bid items for the MOA project to replace the driveway beyond the limits depicted in the design drawings, but homeowners could contact the contractor to see if they are willing to reconstruct their driveway the additional distance. All coordination and payment beyond the project limits will need to be done by the homeowner, and it would be the contractor's decision if they wanted to perform the additional work or not.
Area map #2	Can a speed hump or Voluntary Speed Compliance (VSC) sign be installed on Reflection Drive at the curve just west of the Loon Cove Circle intersection? Many vehicles speed along this curve and it's dangerous for pedestrians and vehicles in this area.
